# New Jersey Congressional District 10

New Jersey Congressional District 10 had a total of **514,676** people living in "hard-to-count" (HTC) census tracts—or areas where a low percentage of residents completed and returned their most recent census questionnaire. This number equates to a total of **69%** of the district's total population.

Total population 743,566

Population living in HTC areas 514,676

Percentage living in HTC areas 69%

#### Hardest to Count (HTC)

Tracts with 2010 mail return rates of 73% or less (in the bottom 20 percent of return rates nationwide) are shaded on the map. Tracts with >73% return rate are not displayed.

0 – 60% mail return rate 60 – 65% mail return rate 65 – 70% mail return rate 70 – 73% mail return rate

The Census has low response rates in some areas and among certain population groups, who are at risk of being undercounted. Some of these hard-to-count population groups include certain racial and ethnic minority groups and children under age 5. For example, of all children under age 5 living in Congressional District 10, **74%** lived in areas at greatest risk of undercount. Census 2020 will be the first time that the Census is conducted using internet responses in addition to mail-in and in-person responses. As a result, households with no or limited internet access may also be at risk of not being counted.

. . . . . . . . . .

### Demographic Groups Living in Hard-to-Count Areas

Demographic Group	Number Living in HTC Areas	Percentage Living in HTC Areas
Black or African American	328,768	82%
Hispanic or Latinx	98,389	69%
Asian	41,155	70%
Children Under Age 5	37,579	74%
Households with Limited or No Internet Access	55,497	21%

Some parts of New Jersey have a greater proportion of hard-to-count census areas than others. The chart below shows the municipalities in District 10 with at least one hard-to-count census tract.

## Municipalities with at Least One Hard-to-Count Area (Total Population ≥ 5,000)

Municipality	HTC Population	% Total Population Living in HTC Areas	% Black or African American Living in HTC Areas*	% Hispanic or Latinx Living in HTC Areas*	% Asian Living in HTC Areas*	% Children Under Age 5 Living in HTC Areas*
Newark	265,307	95%	96%	93%	90%	96%
