

New Jersey Legislative District 29

New Jersey Legislative District 29 had a total of **196,572** people living in “hard-to-count” (HTC) census tracts—or areas where a low percentage of residents completed and returned their most recent census questionnaire. This number equates to a total of **84%** of the district’s total population.

Total population	234,169
Population living in HTC areas	196,572
Percentage living in HTC areas	84%

Hardest to Count (HTC)

Tracts with 2010 mail return rates of 73% or less (in the bottom 20 percent of return rates nationwide) are shaded on the map. Tracts with >73% return rate are not displayed.

The Census has low response rates in some areas and among certain population groups, who are at risk of being undercounted. Some of these hard-to-count population groups include certain racial and ethnic minority groups and children under age 5. For example, of all children under age 5 living in Legislative District 29, **87%** lived in areas at greatest risk of undercount.

● Demographic Groups Living in Hard-to-Count Areas

Demographic Group	Number Living in HTC Areas	Percentage Living in HTC Areas
Black or African American	77,540	91%
Hispanic or Latinx	86,118	84%
Asian	4,443	53%
Children Under Age 5	14,298	87%

Some parts of New Jersey have a greater proportion of hard-to-count census areas than others. The chart below shows the municipalities in District 29 with at least one hard-to-count census tract.

● Municipalities with at Least One Hard-to-Count Area (Total Population ≥ 5,000)

Municipality	HTC Population	% Total Population Living in HTC Areas	% Black or African American Living in HTC Areas*	% Hispanic or Latinx Living in HTC Areas*	% Asian Living in HTC Areas*	% Children Under Age 5 Living in HTC Areas*
Newark	265,307	95%	96%	93%	90%	96%
Belleville	13,357	37%	43%	42%	30%	37%

*Hard-to-count demographic sub-group populations out of total sub-group populations.
